The Digital Age

We are now living in what some people call the digital age, meaning that computers have become an essential part of our lives. Young people who have grown up with PCs and mobile phones are often called the digital generation. Computers help students to **perform** mathematical operations and improve their mathematics skills. They are used to access the internet to do basic research and communicate with other students around the world. Teachers use projectors and interactive whiteboards to give presentations and teach sciences, history, or language courses. PCs are also used for administrative purposes - schools use **word processors** to write letters, and database to keep records of students and teachers. A school website allows teachers to publish exercises for students to complete **online**. Students can also enroll for courses via the website and parents can **download** official reports. Mobiles let you make video calls, send texts, email people and download logos, ringtones or games. With a **built-in** camera you can send pictures and make video calls in face-to-face mode. New smartphones combine a telephone with web access, video, a game console, an MP3 player, a personal **digital** assistant (PDA) and a GPS navigation system, all in one.

In banks, computers **store** information about money held by each customer and enable staff to access large databases and to carry out **financial** transactions at high speed. They also control the cashpoints, or ATMs (Automatic Teller Machines) which dispense money to customers by the use of a PIN-protected

Simple Present Tense

Do exercise 5

Exercise 5: Match the words in column A (1-10) with their meanings in column B (a-j).

|	
1. perform	a. keep, save
2. word processor	b. execute, do
3. online	c. monetary
4. download	d. screen
5. built-in	e. integrated
6. digital	f. connected to the internet
7. store	g. collection of facts and figures
8. financial	h. describes information
9. monitor	i. program used for text manipulation
10. data	j. copy files from a server to your PC or mobile

Simple Present Tense

The Form:

The present tense is the **base form** of the verb	• I **work** in a multimedia company.
But the third person (she/he/it) adds an **-s**	• She **works** in a multimedia company.

Simple Present Tense

Uses:
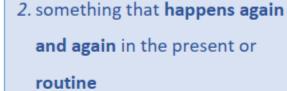

1. something that is true in the **present**	• He **studies** C++ language programming this semester. • I'**m** an Information Technology student.
2. something that **happens again and again** in the present or **routine** We use words like **sometimes, often, always**, and **never** (adverbs of frequency) with the present tense	• I **play** online games every weekend. • I **sometimes** play online games with my friends. • She **never** plays online games.
3. something that is **always true** or **facts**	• Light **travels** at almost 300,000 kilometers per second.

Imperatives

Read the Text on Exercise 10

Exercise 10: Study these instructions on how to format a computer and install Windows. Pay attention to the *italic* and underline words.

When you want to format and install Windows 10 on your PC, what you need to prepare is Windows 10 installation disc. Make sure that it is original one since you need a serial number or a product key to complete the installation process. Moreover, you need to follow these following steps. *First,* insert the Windows 10 installation disc in your computer and restart the computer. When the prompt appears, press any key on your keyboard to begin the installation process during the boot procedure. *Second,* click "Next" on the first installer prompt that appears. *After that,* click "Install Now." Check the license term box and click "Next." Click "Custom (Advanced)" to access the installation option that allows you to format your hard drive. Select the hard drive or partition that you wish to format. Click "Next." Enter the username that you want to assign to your computer.

Imperatives

Read Exercise 12

Imperatives	Insert the Windows 7 installation disc in your computer and restart the computer. Check the license term box and click "Next." Select the hard drive or partition that you wish to format.

Sequencers

Read Exercise 12

Sequencers	*First*, insert the Windows 7 installation disc in your computer and restart the computer. *After that*, click "Install Now. *Then*, create a computer name. *Finally*, the formatted Windows installation is complete.
